About This Course

This course addresses the coverage exclusions and limitations in the most current ISO Homeowners 3 – Special Form and the ISO Personal Auto Policy for exposures created by clients' business activities and their ownership or use of recreational vehicles and watercraft. Clients may not be aware they are lacking the proper insurance coverage for these activities until after a loss occurs. After completing this course, you'll know the coverage gaps and when an appropriate endorsement is available to provide the needed insurance protection. You'll also know the right questions to ask your clients to help you identify these exposures so you can tailor an appropriate insurance and risk management program that meets their needs. Learn how to analyze the important coverages offered through personal umbrella and excess liability policies. *It is recommended that students taking this course have already taken CISR Personal Residential or have a working knowledge of the Homeowners Policy Form.*

Topics covered include:

- Watercraft exposures and coverages
- Business activities of personal lines clients
- Personal umbrella/excess liability
- Recreational vehicles

Who Should Attend?

The CISR program is designed to serve the practical needs of customer service representatives, newly licensed producers, company personnel and any others who wish to refresh their product knowledge.

ADA
